

## ENGINEERING RISK SPECIALISTS

---

**Engineering Risk Specialists (ERS)** was formed in late 2009 to provide high quality Risk Engineering and Technical services to the Construction and Engineering Insurance and Reinsurance Markets and their Clients in the UK and Internationally.

ERS operates with a small team of industry-experienced specialists headed by Tony Newberry, who has provided independent technical loss adjusting and risk management consultancy services to the Insurance and Reinsurance markets, both as an employee and as an independent consultant, since 1991, most recently as a director and partner in Beckett Whelan & Co Ltd.

Our core services of **Risk Engineering, Project Delay in Start Up Monitoring and Technical Loss Adjusting** are complemented by a range of other services including:

- Engineering Underwriting Information Reports
- EML and Risk Accumulation studies
- Recommendations for Risk Improvement and Emergency/Contingency Planning
- Boiler & Machinery Failure investigation and causation studies
- Technical support to underwriters, claims managers and other insurance market professionals
- Business Interruption, Delay in Start Up and Advance Loss of Profit assessment
- Independent "Second Opinion" Claims Review
- Technical Litigation Support

### **ERS Values**

- Commitment to our clients' needs –
- Technical focus and attention to detail –
  - Clear structured reporting –
  - Independence and objectivity –
  - Teamwork and communication –
